

## Saving Safari Challenge Tips

Got some extra cash “lion” around? Go on a Saving Safari! Challenge a family member or friend and find out who can reach a goal first.

### Set a Goal and Track Your Savings

1. **What are you saving for?** Picture your goal...a video game, an iPad, tickets to a concert, really cool shoes, a laptop, or some scrapbooking supplies.
2. **How much do you need?** Find out the price of your goal—check a local store or online. This is how much you’ll need.
3. **Enter your savings** and watch your progress. See who reaches the goal first.
4. **Keep your savings safe** at the credit union.

### Savings Tips for Everyone

- **Set reasonable goals.**
- **Save *first*, not last.** As soon as you get your paycheck, your birthday money, or your allowance, put part of it away in savings.
- **Track your spending *and* your savings.** People who track their spending soon find they spend less and save more
- **Be a bargain hunter.** When you do spend money, make sure you check for the best bargain. Watch the price tags, not the brand names at the store.
- **Ask questions!** If you have questions about money or saving, ask the professionals at the credit union. They’re ready to help you.

### Don’t have a regular job...here are some ideas for earning some cash
